

Next-Generation 2023 Ford Everest[®]

Ford

All-new and ready for action.

The all-new Next-Gen 2023 Ford Everest[®] SUV more than earns its impressive name. It's built tough and can take you and your crew of adventure seekers far from the beaten path. With a newly designed exterior firmly planted at its corners, and new soft-touch finishes inside the sophisticated interior, it's time to aim higher with the Everest SUV.

Everest Trend

With Next-Gen capability and technology, Trend is ready to embrace anything thrown its way. Ruggedly stylish, smart and safe, Everest Trend is yours for fun and adventure.

Everest Titanium+

Titanium+ brings an exclusive level of sophistication, luxury and intelligence to overlanding mastery. Built because we can, Everest Titanium+ is king of the road.

Everest Sport

Blackout grille, trim and wheels are matched with an athletic Ebony interior, for a dominant signature effect. Everest Sport is ready to take on your adventures.

2.0L Turbo Diesel Engine

Standard on Trend 4x2 and Sport 4x2

POWER

170 PS^{1,2}

TORQUE

405 Nm^{1,2}

6-speed automatic transmission

2.0L Bi-Turbo Diesel Engine

Standard on Trend 4x4 and Titanium+ 4x4

POWER

210 PS^{1,2}

TORQUE

500 Nm^{1,2}

10-speed automatic transmission

Power up and go.

The Next-Gen Ford Everest® SUV features a choice of premium engines that deliver power and torque for towing, hauling and off-roading. It also comes with a standard 6-speed automatic or an available 10-speed automatic.

1. Power and torque ratings based on premium fuel per Ford Engineering standard. Your results may vary. 2. Power and torque are independent attributes and may not be achieved simultaneously.

Available Selectable Drive Modes.

Everest gives you command of up to 6 available on- and off-road drive modes to help master every terrain: Normal, Eco, Tow/Haul, Slippery, Mud/Ruts, Sand.

Wireless connection.

Connect to **Apple CarPlay**^{1,2} or **Android Auto**^{2,3} without a cable in sight. This cordless connection makes life easy and uncluttered.

Screen display varies by market.

Available 12" Touchscreen

Available Electronic Automatic Gear Shifter

SYNC 4A.

An in-vehicle communication and entertainment system with a host of features, made easier by the system showing your last 5 actions, wireless smartphone integration, and a 10.1" or available 12" touchscreen.

Available Ford Active Park Assist 2.0.

Helps reduce the anxiety of parking by taking over the steering, shifting, braking and acceleration to navigate parallel or perpendicular parking spaces with ease.^{5,6}

A sense of confidence.

The Next-Gen Ford Everest[®] SUV lets you experience a whole new world of connectivity, with available wireless charging, wireless connection, and the **SYNC[®] 4A⁴** infotainment system.

1. Apple CarPlay and its functions are products of Apple[®] and its terms and privacy statements apply. Requires compatible iPhone[®] and data plan. 2. Requires phone with active data service and compatible software. SYNC 4A does not control 3rd-party products while in use. 3rd parties are solely responsible for their respective functionality. 3. Android Auto and its functions are products of Google[™] and its terms and privacy statements apply. Requires compatible Android[™] smartphone with Android Auto app on Google Play[™] and data plan. 4. Don't drive while distracted or while using handheld devices. Use voice-operated systems when possible. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Functionality varies by market. 5. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. It does not replace safe driving. See Owner's Manual for details and limitations. Restrictions may apply. See your dealer for details. 6. Active Park Assist 2.0 is only available on vehicles that are fitted with an electronic automatic gear shifter. 7. Available Qi wireless charging may not be compatible with all mobile phones.

Wireless Charging Pad

Wireless charging pad.

Avoid the hassle of having to plug in your phone. Simply place it on the available wireless charging pad⁷ and you're good to go.

Ford Everest® SUV seats up to 7. Space for family comfort.

Everyone should be comfortable, no matter where they are sitting. Next-Gen Everest is more spacious than ever, with every passenger getting more room. On the Titanium+ model, the dual-panel sunroof adds to the sense of openness and adventure.

Ford Everest offers an available hands-free, foot-activated liftgate.

Hands full? Open the liftgate just by kicking your foot under the sensor. Next-Gen Everest SUV's liftgate is standard on Sport and Titanium+ models and wider for easier loading, opens and closes faster, and is designed to fully operate even with a conventional trailer attached.

Pre-Collision Assist® with Automatic Emergency Braking (AEB).

This driver-assist system is designed to help detect and potentially avoid a frontal collision with other vehicles or pedestrians.^{1,2} If a potential collision is detected, an alert sound is emitted and a warning message will display in the message center. If your response is not sufficient, Automatic Emergency Braking will precharge and increase Brake Assist sensitivity to provide full responsiveness when you do brake. If you don't take corrective action and a collision is imminent, brakes can apply automatically.

Intelligent Adaptive Cruise Control (IACC) with Stop-and-Go and Lane Centering.

IACC helps maintain your speed when you're on the road^{1,3} and with Stop-and-Go,⁴ can slow your vehicle if traffic ahead has stopped or slowed. Lane Centering scans lane markings to help keep you on track.

1. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. It does not replace safe driving. See Owner's Manual for details and limitations. 2. Pre-Collision Assist with Automatic Emergency Braking can detect pedestrians, but not in all conditions and does not replace safe driving. 3. IACC with Lane Centering has a minimum operating speed of 20 km/hr. Detection of lower speed limit will result in system entering standby. The Stop-and-Go functionality of this system operates as low as 0 km/hr in traffic jam situations. 4. If vehicle is stopped for more than three seconds, driver must intervene and press "RES" button or accelerator pedal to resume the system operation.

The Ford Everest[®] SUV range.

Trend

Ruggedly stylish, smart and safe, and ready for it all.

Sport

Ready to take you on adventures and look great doing it.

Titanium+

More sophistication and intelligence for every journey.

Choose your color.
